Procedures
1. Development and Maintenance
   1.1 Schools are expected to foster and maintain a safe and secure environment through measures which include:
      1.1.1 A school environment where appropriate behaviour is valued, taught and modeled by all staff and students.  
      1.1.2 Developing positive student attitudes towards the school and its environment,  
      1.1.3 Providing students with supervision at approved activities and making all participants in school-related activities, staff, students and parents aware of expectations held with respect to their conduct and language,  
      1.1.4 Developing plans for possible action to be taken by students and staff in monitoring and responding to perceived threats to or breaches of the security and good order of the school,  
      1.1.5 Making students, parents and staff aware of the school’s expectations for conduct and of the consequences established for serious or repeated misconduct.  

   1.2 In developing positive student attitudes which are conducive to a safe and secure school environment, schools are expected to:
1.2.1 Provide students with an environment and program which is caring, which provides opportunities for and recognition of success and which fosters self-esteem, self-discipline and a sense of responsibility,

1.2.2 Assist students in developing appropriate approaches to solving problems and resolving conflict,

1.2.3 Take advantage of opportunities afforded by provincial curriculum and co-curricular activities to develop respect and caring for:
   - learning
   - self and other persons
   - democratic values, rights and responsibilities
   - cultural diversity
   - property
   - law and order

1.3 The Student Code of Conduct must be made publically available, displayed in a prominent location on school and/or websites, and be provided to all staff, students and parents in a manner to ensure a common understanding.

1.4 School handbooks, as approved by the Principal, shall publish the expectations for behaviour and the student conduct intervention procedures established for use within the school and the Division.

2. Responses to Misbehavior

2.1 Principals are expected to respond to behavior which threatens or breaches school safety and security.

2.2 That the Division expects parents to assist schools in maintaining a safe and secure environment by:
   - familiarizing themselves, supporting and encouraging student respect for school discipline expectations, policies and guidelines; and
   - by supporting the school in the enforcement of these expectations, policies and guidelines at all school functions, both on-campus and off-campus.

2.3 Any response to misbehavior must take into account the age, maturity and individual circumstances of the involved students.

2.4 Routine student conduct intervention decisions are normally the responsibility of the classroom teacher. Teachers shall contact parents and endeavour to involve them in resolving ongoing conduct problems, and shall document any such contacts with parents.

2.5 School administrators shall become involved with student conduct intervention actions when normal classroom intervention has not achieved the desired outcome. Except in exceptional circumstances, school administrators must make every effort to involve parents at this level, and must document all such efforts.
2.6 Normal in-school student conduct interventions have the goal of behaviour change. When inappropriate behaviour does not change, it may be necessary to remove the student from the classroom, to protect the well-being of other students, or to prevent disruption of the learning environment. Hence, suspensions and expulsions are very serious interventions, and are normally employed only after other measures have been tried and substantial efforts have been made to involve parents in the process of correcting unacceptable behaviour.

2.7 Disciplinary Action, including suspension, expulsion or other disciplinary measures deemed appropriate by the Principal shall be considered when a student:

2.7.1 Exhibits open opposition to authority,
2.7.2 Exhibits willful disobedience,
2.7.3 Habitually neglects duty,
2.7.4 Uses improper or profane language,
2.7.5 Engages in conduct potentially injurious to others,
2.7.6 Engages in bullying or harassing behavior,
2.7.7 Willfully damages school property,
2.7.8 Exhibits behaviour that interferes with school- or Division-approved activities,
2.7.9 Exhibits behaviour prohibited by other administrative procedures,
2.7.10 Exhibits behavior inconsistent with Section 12 of the School Act, responsibilities of students.

4.2 The Superintendent or designate shall establish a meeting with the student, the parents, and the Student Appeals Committee.

4.3 All information received by the committee must be presented before both parties. The committee may meet alone to discuss the information, but may not meet separately with one party prior to reaching a decision.

4.4 The Student Appeals Committee shall, within ten school days of the first day of the suspension, reinstate, or expel the student.
