

Odyssey Grades 2-5 Supply List 2021-2022

Dear Parents,

To help you with supply shopping for next year, we want to help you choose supplies that fit your child’s organizational style. **Please read the chart below with your child and see which style seems to fit them best. Then, purchase the supplies that go with that style.** We hope that tailoring the supply list to more accurately meet the needs of your child will help them to be more successful! We’ll also share some suggestions with you about systems that can help your student bring work home, get it done, and return it again; about study skills; and about helpful morning and nighttime routines. We’re basing our suggestions off of a book we read together called Organizing the Disorganized Child by Martin L. Kutscher and Marcella Moran. We hope it helps!
