

Mission Statement

APM Mission

Appleton Public Montessori seeks to nurture the full potential of every child through the presence of the Montessori philosophy in all learning environments, encouraging intrinsic motivation, and instilling a love of learning, now and for a lifetime.

Who We Are

Appleton Public Montessori is committed to the development of the whole child by implementing curriculum and methodology based on the Montessori philosophy of education and human development. We seek to maximize the potential of every child in a structured, hands-on, and beautifully crafted environment that encourages critical thinking, communication, collaboration, and creativity. In a classroom filled with peace and joy, students become intrinsically motivated to love learning now and for a lifetime.

Guiding Principals

- To enable each student — through individualized instruction based on observation and understanding of learning styles and abilities — to become an independent, responsible, and self-motivated learner.
- To structure learning environments which foster student-initiated inquiry/research and projects which develop understanding and appreciation of the world beyond the classroom.
- To encourage collaboration and communication in a beautifully crafted environment filled with peace, mutual respect, and joy.
- To build character by instilling the importance of having each student be the very best they can be, contributing positively to the greater community at large.
- To engage families in the education of their children through ongoing communication, community events, and joint planning to address evolving needs and circumstances.
